Naina Premani

Full Stack Web Developer

Professional Summary

Proactive full-stack web developer proficient in JavaScript, React.js, Node.js, and MongoDB. Collaborative team player experienced in translating project requirements into scalable web applications. Strong problem-solving skills and attention to detail. Committed to staying updated with the latest web development technologies and best practices.

Projects

BuyCar_Corp

[Live Demo Link](#)

[Github Repo Link](#)

react redux chakraUI REST API CSS HTML5
Node Express MongoDB

- Created a full-stack web application using the MERN stack (React, Redux, ChakraUI, Node, Express, MongoDB)
- Implemented features for user registration, secure login, car listing and filtering, post creation, updating, and deletion
- Individually built the BuyCar website to provide integration between frontend and backend components

TodoApp

[Live Demo Link](#)

[Github Repo Link](#)

React Typescript CSS HTML

- Built a Todo Application using React and TypeScript, allowing users to add, delete, update, and mark the status of tasks
- Implemented CRUD operations in the application, enabling users to perform basic task management
- Utilized TypeScript to ensure type safety and improve code quality in the React components
- Developed responsive and user-friendly UI using CSS and HTML
- Took ownership of the project and successfully built the Todo website independently

Experience

YOLOHealth | Manual Software Tester

August 2017 - June 2018

- Manual testing of the website
- App testing
- Healthcare device testing
- Reporting bugs and keeping documentation of bugs
